

URBAN S(E)OUL

Project Description

- ISA 3rd party provider OSU approved education abroad
- Korea University's international summer campus program
- Spent six weeks in Seoul, South Korea
- Program included two excursions, to Busan & Donghae

What motivated me to select this project?

- Minor in Korean language
 - Got to get lots of practical language practice
 - Took two courses there (credits transferred)
 - Korean Literature and Culture; Korean language
- *Originally wanted to self-study Seoul's architecture to better understand own personal design style and if I wish to attend grad school*

Highlights

- New friends
- EXO concert
- Korean bath houses
- Nightlife in Seoul
- Absurd amount of restaurants & cafes
- Noraebangs

How was this process transformational?

The project didn't turn out how I intended, the biggest part of my experience there became the people I met. Never travelling much before, the culture shock of spending all my time with people from South Korea as well as all over the entire world became the most valuable part of the experience for me. I made friends who widened my perception on many issues.
